

STEER YOUR FLEET IN THE RIGHT DIRECTION

rsacommercialauto.ca

As a fleet owner, you want to keep your drivers safe, minimize risks and reduce costs. RSA's free Driver Safety Management Package, available at rsacommercialauto.ca, provides everything you need to make sure you hire the right drivers for the job and keep them safe on the road. By investing a bit of time in prevention, you'll save countless hours dealing with the consequences of collisions—and save your company's hard-earned dollars.

The portal is divided up into three sections—**hiring, safety and collisions**—each providing you with the knowledge, tools and templates to help you and your business get the best from your drivers and your fleets.

Hiring

Hiring the right drivers is the first step to maximizing the success of your fleet. Formal guidelines are a necessity to establish acceptable driving qualifications for any employee who regularly drives your company vehicles. Find out how insurers differentiate between a good, average or poor driving history in our Driver Abstract Tolerances brochure, and use our templates to hire and test your drivers.

- Driver Employment Application
- Driver Road Test—Automobiles
- Driver Road Test—Commercial Automobiles

Safety

Both management and employees must be totally committed to fleet safety. By establishing and monitoring safety policies and procedures, you will be able to compare current and past safety practices, rate fleet-safety performance and make positive changes to your business model when required. Use our tools to set up your driver safety policy and get the best from your drivers.

- Driver safety policy template
- Road Observation Report
- Driver's Yearly Declaration
- Simplified Maintenance Plan checklist
- Defensive-driving tips

Collisions

Managing your fleet's safety will help to reduce the amount of incidents that occur—but some collisions do unfortunately happen. By creating and implementing procedures for reporting, recording and analyzing collisions and other vehicle-related incidents, you will be able to identify the cause of the incident and take steps to prevent it from reoccurring.
